
AUTOMOTIVE INDUSTRIES

The AUTOMOBILE

INDEX TO VOLUME L

(January 3 to June 26, 1924)

Here is an accurate guide to the authoritative articles and reference data which have appeared in AUTOMOTIVE INDUSTRIES during the last six months. The publication of this index is in line with our constant efforts to make this publication of maximum service to the entire automotive industry.

INDEX TO VOLUME L

ISSUES OF JAN. 3 TO
JUNE 26, 1924, INCLUSIVE

Jan. 3	1-54
Jan. 10	55-112
Jan. 17	113-162
Jan. 24	163-212
Jan. 31	213-266
Feb. 7	267-320
Feb. 14	321-370
Feb. 21	371-494
Feb. 28	495-544
March 6	545-598
March 13	599-648
March 20	649-698
March 27	699-748
April 3	749-802
April 10	803-852
April 17	853-902
April 24	903-952
May 1	953-1006
May 8	1007-1056
May 15	1057-1106
May 22	1107-1156
May 29	1157-1206
June 5	1207-1260
June 12	1261-1310
June 19	1311-1360
June 26	1361-1410

A

Accessory exporting	554
Accidents—Defective brakes claimed to be important cause of accidents	32
Accidents for first three months	1000
Analysis of accidents last year	943
Hoover takes steps to reduce accidents	842
Number of accidents in April	1196
Why the automotive industry should lead in accident prevention	175
Accountants—What vocational accountants can do for a big business	1015
Acme Works—File suit against Weldely Motors	841
Acres, F. A. S.—Separate operation of front and rear brakes favored	772
Adair, Neal—A. E. A. convention at New Orleans	834
Advertising—How to write auto ads which will be read	662
Advertising copy	1274
Newspapers tell what they think of auto development	1325
Toledo advertising conference	1379
Air cleaners—Various kinds desc. (ills.)	180
Tests made for efficiency of air cleaners	1367
Air compressors—Westinghouse air compressors	756
Nozzles vs. orifices for air flow measurement	1283
Air consumption—Horsepower output determined by measuring rate of air consumption	1131
Air engines	
American aircraft engine specifications (table)	463
British aircraft engine specifications (table)	463
Power losses are reduced in aircraft engine operation	714
Tests made with inverted Liberty engine	1380
Two-cylinder aircraft engine desc. (ills.)	342
Water-cooled aero-engines better than air-cooled engines	326
Aitchison, Leslie—Aluminum and magnesium pistons	924
Magnesium and more aluminum connecting rods predicted	970
Ajax Rubber Co.—Financial report	840
Alloys used in aircraft engines	574
Effects on alloys of rate of cooling	623
Magnesium and more aluminum connecting rods predicted	970
Properties of alloys (tables)	925
Rate of cooling determines hardness of alloy	723
Allyne-Zerk Co.—Lubricator (ills.)	615
Alpe Patent Coupling, Ltd.—Coupling disks (ills.)	517

Aluminum imports are not restricted	32
Aluminum protected by water glass in cleaning bath	353
Automotive consumption of aluminum	1025
Amalgamated Motors Corp.—Acquires Northway Motors	362
American Automobile—Magazine issues	948
American Automobile Assn.—Contest board members	898
Lending aid to cut lamp glare	544
Merger reaches final stage	894
Two associations merge	537
American Bosch Magneto Corp.—Shock absorber desc. (ills.)	14
Chicago makers stopped from using Bosch name	258
Electric windshield wiper desc. (ills.)	289
Financial report	740
Financial report	688
Impulse coupling desc. (ills.)	922
American Bronze Corp.—Receivership ended	1046
American Chain Co.—Companies taking licenses	315
Financial report	795
Loses bumper patent suit	587
American Chemical Society—Demand for durable finishes	978
American Electric Railway Assn.—Discuss traffic congestion	1305
American Flexible Wheel Corp.—To make disk wheel	896
American Gear Mfrs. Assn.—Annual convention	1027
American Grinder Mfg. Co.—Reorganizes	367
American Railway Express Co.—Store door delivery survey is completed	743
American Road Builders Assn.—Convention	211
American Steam Truck Co.—Receiver will operate	1095
American Welding Assn.—Annual meeting	1036
Ames Holden Tire & Rubber Co.—Financial report	740
Angle, Glen—Two-cylinder aircraft engine desc. (ills.)	342
Ansted Spring & Axle Co.—Head is named receiver	1095
Argentina—1923 car sales	313
Import duties changed	598
Monthly shipments	1357
Armitage & Co.—Armorcote baking enamel	859
Armstead snow-motor desc. pt. 1	820
Asbestos Break Lining Assn.—Standard data book on brake linings	1324
Assembly system—Jewett assembly system desc. (ills.)	281
Chevrolet Tarrytown plant assembly (ills.)	666
Associated Bodies Corp.—Organized	1204
Associated Equipment Co.—A. E. C. truck desc. (ills.)	550
Associations—Trade bodies cannot circulate statistics	151
Mr. Stone's ideas on association activities	853
Farm implement makers deny Federal charges	493
Trade association test cases planned	1154
Atlantic Aircraft Corp.—Leased for Fokker manufacture	1104
Auburn Automobile Co.—Balloon tires as standard equipment	896
Australia plans all-British show	721
Extending bus and taxi service	1133
Our eighth best foreign customer	1083
Railcars in Australia	1222
Austria—Accessory market grows	1035
Auto Body Co.—Sales for 1923	483
Automatic Transportation Co.—Industrial truck desc. (ills.)	24
Automobile Body Builders Assn.—Annual convention and show	1246
Automobile Crankshaft Corp.—To liquidate company	257

Automotive Boosters International—Form overseas club	155
Automotive Electric Assn.—Standards work to be extended	96
Electric equipment makers adopt code	1151
Automotive Electric Service Assn.—To organize sections	264
Automotive Equipment Assn.—Convention at New Orleans	834
Automotive Equipment Co. & Whitehouse Mfg. Co.—Harris patent suit ended	312
Automotive Mfrs. Assn.—Meeting	155
Avery Co.—Receiver appointed	894
Reorganization plans progressing	1349
Aviation	
Aeronautic session of S. A. E.	230
American aircraft exports for 1923	1320
American airplane specifications (table)	458
Army planes start to encircle the globe	689
Britain subsidizes merged air service	1409
British Government to resume lighter-than-air development	1283
Burney scheme for transport by lighter-than-air craft	563
Coast to coast air service starts soon	1402
Farman Goliath plane makes height records	1152
Fokker's operations wait for government	1146
Foreign airplane specifications (table)	460
France offers plane prizes	491
French to lay cable for guiding airplanes	291
Hydrogen gas urged for flight to Pole	203
Invents billboard landing for planes	948
Maughan flies across continent in 22½ hours	1405
Medal will be given to further air work	1304
Military bomber used by d'Oisy in flight	1205
Oehmichen makes flight in Peugeot helicopter	1198
Paris-China flight fails	1154
Post office awarded trophy for air work	490
Pulitzer trophy race to be held in October	1409
Sees aircraft chief industry in future	843
Senate votes to create Bureau of Aeronautics	157
Stout all-metal monoplane desc. (ills.)	959
Tractor type plane makes successful flight	1408
U. S. Chamber of Commerce wants safety code for air	486
Axles	
American stock front axle specifications (table)	450
American stock rear axle specifications (table)	448
Axle housings from tubular stock	630
Columbia axle for four-wheel brakes (ills.)	508
Salisbury front axles with brakes desc. (ills.)	344
Shuler front axle for motor buses	981
Wisconsin bus axle desc. (ills.)	346
Wolf double-reduction axle desc. (ills.)	1124

B

Baechler carburetor desc. (ills.)	757
Baker, E. M.—Rust resistance of nickel-plated steel	224
Baker, R. & L. Co.—Buys Rubay Co. property	149
Five-passenger sedan (photo)	1266
Ball joint for drag links	28
Barnes Drill Co.—Drilling and reaming machine desc. (ills.)	145
All-gear drill (ills.)	720
Automatic drill desc. (ills.)	1285
Automatic drill has self-indexing work table (ills.)	1285
Drill and tapper (ills.)	707
Bassick-Alemite Co.—Buys Evans control	798

Buy's Allyne Zerke interest.....	1045	Mechanical World Electrical Pocket Book	878	Disk wheels for 7-in. pneumatics....	725
Financial report	532	Mechanics of the gasoline engine.....	33	Buenos Aires—Used car problem serious.	544
Bates Machine and Tractor Co.—Company solvent.....	641	Moteurs a Gaz, a Essence et a	983	Buick Motor Co.—Demonstrating crew to tour country.....	1206
Trustee appointed	851	Petrole	577	1923 sales	698
Bates Tractor Co.—Creditors agree to reorganization	686	Motor Truck	1237	Bumpers—Federal bumpers desc.....	275
Battery Mfrs. Assn.—Form association.	740	Popular Research Narratives.....	1038	Bundy Tubing Co.—Novel type of tube for auto use.....	961
Government films story of battery.	741	Practical calculus for home study.....	1324	Burgess-Norton Mfg. Co.—Gets Trusco Brace rights	994
Storage batteries used on airplanes.	1235	Standard data book on brake linings.	577	Burke, James—Commercial treaty affects trade	933
To prevent discharge of battery after engine has been "killed".....	681	Testing	131	Burnett four-cycle engine desc. (ills.)	1278
Willard charged bone dry batteries simple to ship and store.....	1223	Wirtschaftliche Grundlagen der Schweizer Automobilindustrie	33	Burnett, Verne—Market should be thoroughly analyzed if benefits of advertising campaign are to be realized	357
Beach Converter Corp.—Carburetor desc. (ills.)	671	Year Bk. of the Natl. Assn. of Cost Accountants	295	Burpee-Johnson Co.—In hands of receiver	642
Beaney Flap Mfg. Co.—Self-adjusting tire flap (ills.)	1115	Borg & Beck Co.—New clutch design (ills.)	91	Burritt, Henry—Year will show place that smaller manufacturer has in automobile industry	685
Bearings		Bosch, Robert—New generator and magnet desc. (ills.)	1287	Buses	
Durex, bearing material holds oil like a sponge	1073	Vacuum tubes applied to engine ignition	362	Akron experiment not fair test of bus transportation efficiency	665
Lasche's formula for friction of bearings	139	Bossert Corp.—Develops carbon steel drum	531	American gasoline bus specifications (table)	420
Rickenbacker adjustable piston pin bearing (ills.)	1226	Boston Automobile Dealers Assn.—Federal Trade Commission frowns upon fixing of used car price.....	22	Buses can handle mass transportation.	236
Stainless steel for ball bearings.....	1391	Bourdon, M. W.—British body practice (ills.)	407	Chief features of gasoline motor bus design, 1924 (charts).....	420
Tests of bearings for trailer axles.....	1339	Front-wheel brakes chief feature of British design	184	English bus regulations can be used to advantage in U. S.	932
Timken making steep angle bearings.	920	Latest London bus desc. (ills.)	521	Fifth Avenue bus with removable top (ills.)	614
Beecroft, David—Used cars and the engineer	12	Specialty designed chassis required for London taxicab market.....	876	London General Omnibus latest bus desc. (ills.)	184
United States' foreign trade.....	1269	Bowen Products Corp.—Chassis lubrication (ills.)	1144	Mannesmann-Mulag bus desc. (ills.) ..	575
Belden Engineering Co.—Organized.....	101	Bowser & Co.—Committee handles finances	1229	New Paris bus uses Perrot brake system	262
Bement drive desc. (ills.)	289	Boyce & Veeder—Jobbers will handle Boyce-ite	654	Pneumatic-tired express bus in Paris (ills.)	654
Bennett Carburetor Co.—Air cleaner desc. (ills.)	332	Bradley, W. F.—Pneumatic-tired express bus in Paris	1225	Reo six-cylinder bus has four-wheel brakes (ills.)	499
Benz Co.—Six-cylinder car desc. (ills.)	1042	Godet & Varelle engine desc. (ills.)	1116	St. Louis rail line may buy bus system	1352
Benz and Daimler plan to merge.....	910	Mercedes wins Sicilian classic (ills.)	419	Wisconsin Truck makes buses with six wheels	212
Fire pump uses automobile engine.....	574	Bradley & Dierfeld—Continental makers try to cut number of models produced	392	Business engineers look to future with confidence and caution.....	754
Diesel engine used in Benz truck.....	636	Brakes		Business	
Benzer Corp.—Awards selling right for Europe	123	Balloon tires and four-wheel brakes chief car design changes.....	220	Automobiles promote prosperity.....	1373
Benzol—Produced from acetylene.....	506	Brake performance studies.....	1048	Business must be its own doctor.....	1060
Bethea, R. H.—Farm market in South.	966	Brake testing code will be formulated.	136	Strongly fortified, industry set for any emergency	803
Bethlehem Motors Corp.—New truck models	1302	Bureau of Standards improves brake lining test apparatus (ills.)	231		
Two new truck models.....	1145	Decelerometer used for checking brakes (photo)	32		
Better Tires Corp.—Judged bankrupt.	912	Defective brakes claimed to be important cause of accidents.....	213		
Bibbins, J. R.—Traffic control.....	838	Engineers debate brake design at annual meeting	983		
Biflex Products Co. and Halladay Co.—Merger	910	Equalization of brake torque justified.	523		
Bignan sport car body design (ills.)	145	Fluid for hydraulic brakes.....	603		
Black & Decker Co.—Electric screw driver desc. (ills.)	832	Four-wheel brake tests (ills.)	407		
Blanchard, Donald—Industrial Mutual Assn. in Flint.....	890	Front-wheel brakes chief feature of British design	1216		
Blood Bros. Machine Co.—Universal joints for cars.....	543	International bus has four-wheel brakes (ills.)	1368		
Bock Gearing Co.—To acquire stock held by Standard Parts Co.....	126	List of car makes using four-wheel brakes	44		
Bodies		Mattlingly automatic hydraulic brake (ills.)	615		
All-purpose bodies	72	Perrot's ideas on four-wheel brake design	216		
Bignan sport car has novel body design (ills.)	22	Pierce-Arrow four-wheel brakes desc. (ills.)	5		
Body changes at N. Y. show (ills.) ..	1077	Power braking (ills.), Pt. 1.....	616		
British body practice (ills.)	572	Power braking (ills.), Pt. 2.....	656		
Fabric bodies and their advantages.	138	Rickenbacker brake testing (ills.) ..	621		
Fisher system places body repairs on par with chassis service.....	1266	Salisbury brakes for front axles desc. (ills.)	344		
Independent body builders profess forebodings about future.....	718	Separate operation of front and rear brakes favored	772		
New body models (photos)	1272	Study of four-wheel brakes advocated	353		
Oxvar process of finishing wood framed bodies	1321	Templar car has four-wheel brakes and 6-cylinder engine	15		
Packard minimizes hand fittings on bodies (ills.)	274	Brakes:			
Plans devised to cut cost of handling lumber for automobile bodies.....	661	Theory and advantages of balanced brake forces	219		
Pullman body briefly desc.....	1261	Twelve months' experience with four-wheel brakes	538		
Sedan models of French sport cars (ills.)	221	Two and four-wheel brakes to have official test	923		
Style—an eternal force in car merchandising	1011	Briggs-Stratton Co.—New motor horn.	860		
Tests give new facts about body materials	613	Brill Co.—Gasoline railcar desc. (ills.)	178		
Ultra-violet rays to test body fabrics and finishes (ills.)	577	Brousseau, A. J.—Farm benefits from highways outweigh their cost.....	716		
Bolts—Types of plow bolts.....	881	Brotherton Co.—Name changed to McKinney, Marsh & Cushing.....	242		
Book reviews		Brown, A. A.—Flexibility of handling material	688		
Automobile repairing	704	Brown Development Co.—Buys site for Brown car	81		
Bakelite	176	Brown-Lipe Gear Co.—New gearset desc. (ills.)	753		
Calco Handbook of Recuperation.....	176	Maximum transmission used in Standard Truck. (ills.)	21		
Crystallizing public opinion.....	1079	Brown & Sharpe Mfg. Co.—Spur Gear hobbing machine. (ills.)	675		
Department and Standard Costs.....	526	Milling machine. (ills.)	717		
Design of diagrams for engineering formulas and the theory of nomography	1237	Universal grinding machine desc. (ills.)	635		
Die Lichtbogen-Zündung nebst Störungserscheinungen	1237	Bruening Windshield Co.—Sold to Cleveland Windshield	309		
Direct current dynamo and motor faults	1334	Buda Co.—Engine for bus.....	486		
Economics of Motor Transportation.....	878	Budd Wheel Co.—5-ton truck to test pneumatic tire use.....			
Electric Motor Truck	1237				
French Universal Annual of the Automobile Industry	1237				
Grundlagen des Automobilbaues.....	1237				
Instructions for installation and care of Thermoelectric Pyrometers.....	1237				
Investigation of maximum temperatures and pressures attainable in combustion of gaseous and liquid fuels	1237				
Light and work.....	1237				
Magnesium	1237				
"Marks' Handbook"	1039				

Climber plant bought and will be operated	1048
Closed car output in 1924	703
Percentage of closed car production by years and price 1915-1923 (chart)	1263
Close-Tite Mfg. Co.—Liquidates indebtedness	362
Clutch—Franklin vibration damper in clutch (ills.)	14
American stock clutch specifications (table)	446
Borg & Beck clutch desc. (ills.)	91
Ohio clutch and gearsets desc. (ills.)	293
Coal—Production of Coal	1139
Coast Tire & Rubber Co.—Convictions returned	99
Coating—Katalite process of coating cylinder walls	680
Armorcote baking enamel	859
Crystallizing lacquer has many uses	935
Demand for better body finishes	1264
Demand for durable finishes	978
Egyptian lacquer	828
Finishing and refinishing approaching high engineering standard	1134
Valentine varnish system	968
Coats Steam Car Co.—Plant to be auctioned again	258
Receiver making plans to sell factory	1300
Cole Motor Car Co.—Daily production	840
Collins, J. H.—Profits per car and per dealer decline while volume grows	85
Collins Mfg. Co.—Formed	840
Columbia Axle Co.—Axle for four-wheel brake (ills.)	508
Columbia Body Corp.—Acquires Columbia Wagon Co.	687
Columbia Motors Co.—Lays plans to help its dealers	104
Creditors agree to extension	1348
Comet Automobile Co.—Receiver report	994
Former officers indicted by Grand Jury	1353
Commercial Credit Corp.—Financial report	368
Maxwell credit plan	1355
Compression chamber's volume measured by sound	1293
Connecting rods—Magnesium and more aluminum rods predicted	970
Contact points should be of different metals	1118
Constantinesco experimental car	1137
Continental Cor Co.—Wins suit	1401
Continental Co.—Harve stabilizer desc. (ills.)	1318
Continental Motors Corp.—Financial report	53
Continental six engine for buses desc. (ills.)	1075
Financial report	1248
Refinancing	737
Cooper Hewitt Electric Co.—Ultra-violet ray test lamps	1011
Cortland Car & Carriage Co.—In receivership	1349
Corunna—To buy fire-fighting equipment	1133
Costs—Supervision costs lowered	1276
Budget system works and pays	1279
Coupling disks (ills.)	517
American Bosch impulse coupling desc. (ills.)	922
Crane built on motor truck (ills.)	1333
Crankshaft production problem	244
Drop forging production for crankshafts (ills.)	1388
Crawford Auto Co.—Name changed to Moller Motor Car Co.	737
Cuba—Holds promise to buy more in 1924	211
Would ship to Cuba without boxing cars	589
Comings, A. V.—Volume or profit— which shall it be?	1127
Curran-McDevitt Co.—To build Mercer cars	686
Curtis Machine Co.—Machine extracts oil from chips (ills.)	524
Curtiss Aeroplane & Motor Co.—States reorganization terms	264
Financial report	637
Cyclemotor Corp.—Absorbed by G. R. S. Products	794
Czechoslovak to make small low priced car	794
Exempts certain taxes	1284

Dalton, James—New York show is suc-	56
cess	
Automotive excise taxes are reduced	530
Business engineers look to future with	
confidence and caution	754
Chicago show desc.	247
Competition in truck industry	116
First quarter sales near record but	
behind expectations	953
Motor car owners win fight in house	544
N. A. D. A. annual meeting	267

Production figures do not show small makers hopeless	649
Sales unlikely to equal capacity (chart)	321
Selling coordinated transportation	189
Sound credits urged	903
Strongly fortified, industry set for any emergency	803
What the automotive map may look like in 1930	699
Daniels Motor Co.—Levene acquires plant	149
Dart Truck & Tractor Co.—Sold	830
Davis & Sons—Insolvent	1145
Dawes, C. N.—Individual heat treatment will improve quality of product	177
Dayton Engineering Laboratories Co.—United Motors handles Ford Delco equipment	88
Dealers—"Five per cent net profit" to be dealer slogan in 1924	119
Car agencies by price classes (chart)	601
Car agencies in each price class (chart)	378
Car agencies in towns with population of various sizes (chart)	601
Dealers and distribution are 1924 problems (charts and tables)	378
Distribution of car agencies in each price group (table)	378
Interest in welfare of dealer essential to future progress	142
Manufacturers plan to make dealer help more practical	812
Number of motor vehicles per dealer (chart)	378
Percentage of car agencies in towns of various sizes (charts)	378
Percentage of dealers and percentage of registrations in each State (map)	378
Percentage of dealers by States (table)	379
Dean, Swan & Kirkham—Trend toward smaller manifold diameters	227
Delling Motors Co.—To produce steam car	52
Denison, M. R.—Supervision costs lowered	1276
Denning, Matt.—Duco used on Oakland show cars	297
Dennison, Henry—Worker representation tends to change control of management	1128
Dennison Mfg. Co.—Analyze their market	519
Dependable Truck Co.—Cited for bankruptcy	893
Depreciation of machine tools	884
Detroit Automobile Dealers Assn.—Report for four months	1103
Detroit Electric Car Co.—Builds new type delivery truck	1052
Detroit Wire Wheel Corp.—Dissolved	1095
DeVlieg, R. A.—Hot swaging	240
Diamant, N. S.—Cooling systems of engine cylinders and fundamentals of operating characteristics of radiators	238
Dicksee, C. B.—Mixture strength and temperature	566
Die heads—Eastern Machine Screw self-opening die heads	501
H & G self-opening die head for Warner & Swasey lathes	863
Landis die head (ills.)	660
Dierfeld, Benno — Six-cylinder Benz desc. (ills.)	332
Gear shifting mechanism feature of German bus (ills.)	575
Simson car desc. (ills.)	726
Diesel engine used in Benz truck	574
Differentials—Bement drive desc. (ills.)	289
Dilution—Instrument for measuring oil dilution	1021
Dimmers—Detroit safety headlight device (ills.)	630
Dodge Bros.—Cooperate with motor boat producer	95
Dodge used car plan	1376
Estimates used car allowance	1252
Makes millionth car	97
Models with 6-ply balloon tires	485
Doehler Die Casting Co.—Stinnes gets rights for Germany	586
Dominican Republic—Better roads increase use of cars	590
Dorris Motor Car Co.—Suit to prevent dissolution	150
Trustees to handle Dorris dissolution	482
Dort, J. Dallas—Sound basis for resuming capacity operations waits upon resumption of buying by farmer	1399
Dort Motor Car Co.—Selling utility coupe	487
Drills—Ingersoll-Rand pneumatic drill desc. (ills.)	776
Van Dorn drill desc. (ills.)	779
Drives—Front end chain drives desc. (ills.)	290

Drivers	
Steptoe electric screw driver (ills.)	1372
Drop forgings produced for crankshafts (ills.)	1388
Duco used on Oakland show cars	297
Duesenberg Automobile & Motors Co.—Receiver to operate factory	108
Dumas, Paul.—Reliability is outstanding characteristic in this year's Indianapolis	1213
Dunlop Rubber Co.—Financial report	151
Clearance gage for balloon tires (ills.)	758
Financial report	1399
Marketing new solid in two sizes	800
Duomatic lathe desc. (ills.)	1186
Duplex Truck Co.—To pay off bank indebtedness	588
duPont de Nemours & Co.—Financial report	312
Dura Co.—Making closed car fittings	533
Durant Motors—Output for 1923 and 1922	157
Canadian financial statement	1403
Daily production	200
Durant-four standard equipment	839
Durant service is aided by prompt shipment of parts	768
Financial report	792
Durex, bearing material holds oil like a sponge	1072
Dynamometer tests (table)	731
Westinghouse torque dynamometer	931

E

Eagle six desc. (ills.)	78
Not to be produced	640
Eastern Machine Screw Corp.—Self-opening die heads	501
Self-opening die head for lathes	863
Eaton Axle & Spring Co.—Bumperettes desc. (ills.)	84
Wm. Peck loses patent suit	590
Wins bumper patent suit	587
Economic Survey—monthly—first number in the month	
Economy Products Co.—Cutter for cutting keyways	246
Edmunds & Jones Co.—New headlight desc. (ills.)	520
Edward, M.—Four wheel brakes in South Africa	849
South African closed car show (ills.)	1290
Edwards, F. C.—Care in design reduces costs of castings	921
Egyptian Lacquer Mfg. Co.—Pyroxylin finish desc.	828
Electric Arc Cutting & Welding Co.—Welder	626
"Tapered" for welding	1291
Electric Auto-Lite Co.—Financial report	202
Earnings for four months	1146
Electrical equipment—Westinghouse adds new units	351
Elgin Motor Car Corp.—Final report	950
Emefson-Brantingham Co.—Financial report	537
Enameling process used by Chevrolet	241
Armorcote baking enamel	859
Enameling bodies in colors	324
More durable car finishes are making their appearance	777
Endurance tour	1253
Engines	
American passenger car engine specifications (table)	400
American stock engine specifications (table)	442
Balance of engines discussed by S. A. E.	541
Burnett four-cycle engine desc. (ills.)	1278
Continental six engine for buses desc. (ills.)	1075
Diamant outlines the principles of cooling	238
Effect of altitude on engine power revealed by bureau tests	1126
Engine balance discussed	872
Engine design seen at N. Y. show (ills.)	61
Engineer opposes use of term "mol" in thermochemical calculations	1292
Engine performance must satisfy car user	227
English engineers define terms for discussion of internal combustion engines	1020
Essentials of a successful constant compression engine	239
Excelsior eight-in-line engine desc. (ills.)	715
Factors which affect detonation	237
Falls eight-in-line engine desc. (ills.)	1182
German inventor has patent on combustion chamber	249
Godet & Varelle engine desc. (ills.)	1225
Hot spot research (ills.)	120
How internal losses in powerplants vary with speed	556
Improving engine economy	933
Lycorning eight-in-line engine desc. (ills.)	1066

Maxwell engine mounting (ills.)	761
Measures volume of compression chambers by sound	1293
Measuring temperature of Knight engine parts	973
Strength of mixture has marked effect on engine temperature	566
Temperature of exhaust valves	1283
Two latest types of Knight engines	135
Undue wear of engine parts is caused by rust	956
Unusual tool grouping lowers costs of Nash engine production (ills.)	559
V-type engine design (ills.)	337
Waukesha engine for taxicabs desc.	81
Engineering & production departments can cooperate	352
How engineers can help truck sales managers	510
England—London may regulate street noise	1035
Britain is hesitant in buying cars now	1194
British motorcycles show improvement in 1000 mile test	1181
